**Share capital reduction through the redemption of treasury shares**

The Board of Directors of Fluidra, S.A. ("**Fluidra**" or the "**Company**"), at its meeting held on 28 July 2026, approved a treasury shares buyback program of the Company for the purpose of reducing the Company's share capital, making use, in turn, of the authorization granted by the Ordinary General Shareholders' Meeting of the Company, held on first call on 6 May 2026, which resolved, under the twelfth item of its agenda, to authorize the Board of Directors, for a period of 5 years, so that the Company may carry out the derivative acquisition of its own shares on the terms provided therein. This program was communicated on the website of the Spanish National Securities Market Commission ("**CNMV**") as inside information on 30 July 2026 (registration number 3,322). The completion of the buyback program, with the derivative acquisition of 2,071,424 treasury shares, was communicated on the CNMV's website by the Company as other relevant information on 18 September 2026 (registration number 42,794).

As a necessary consequence of such derivative acquisition, the aforementioned Ordinary General Shareholders' Meeting of the Company, held on first call on 6 May 2026, also resolved, under the aforementioned twelfth item of its agenda, to authorize the Board of Directors to reduce the share capital by up to a maximum corresponding to 10% of the share capital on the date of the resolution (i.e. up to a maximum nominal amount of EUR 19,212,907, corresponding to 19,212,907 shares of EUR 1 par value each) through the redemption of treasury shares that have been derivatively acquired by the Company under the authorization of the General Shareholders' Meeting, for a period of 5 years.

In compliance with the provisions of Article 319 of the Capital Companies Act, it is hereby reported that the Board of Directors of Fluidra, at its meeting held on 27 October 2026 and in exercise of the aforementioned delegated authorities, has agreed to reduce the share capital by a nominal amount of EUR 2,071,424, through the redemption of 2,071,424 treasury shares of EUR 1 par value each, which were acquired derivatively by the Company in execution of the treasury shares buyback program for the purpose of reducing Fluidra's share capital.

The share capital of Fluidra resulting from this capital reduction is therefore set at the amount of EUR 190,057,646, represented by 190,057,646 shares of EUR 1 par value each.

The capital reduction represents a partial execution of the authorization granted in the aforementioned resolution of the General Shareholders' Meeting adopted on 6 May 2026, with the authorization to reduce the Company's share capital by a nominal amount of EUR 17,141,483, corresponding to 17,141,483 shares of EUR 1 par value each remaining outstanding.

This share capital reduction does not entail the return of contributions, since the Company itself is the owner of the redeemed shares, and is charged against unrestricted reserves, by means of the allocation of the redeemed capital reserve for an amount equal to the par value of the redeemed shares, which can only be used subject to the same requirements as those required for the reduction of share capital, pursuant to the provisions of Article 335 c) of the Capital Companies Act. Consequently, in accordance

with the provisions of said article, the Company's creditors will not have the right of opposition referred to in Article 334 of the Capital Companies Act.

Likewise, it is hereby reported that the Company will request the delisting of the redeemed shares from the corresponding Stock Exchanges and the cancellation of the redeemed shares in the accounting records of Sociedad de Gestión de los Sistemas de Registro, Compensación y Liquidación de Valores, S.A.U. (IBERCLEAR).

This announcement is also available on the Company's corporate website www.fluidra.com/en.

Sant Cugat del Vallès, 28 October 2026.

The Chairman of the Board of Directors.- Mr. Eloy Planes Corts
